YOUR OWN IN-HOUSE AI

Plug and Prompt

A private AI machine for your office. We install it, your team starts asking.

WE

Plug

Our engineer installs the machine in your UK office.

YOU

Prompt

Your team opens the chat and starts asking.

WHAT YOUR TEAM ASKS FIRST

LEGAL

“Summarise this contract and flag unusual clauses.”

AUDIT

“Compare these two reports and list the differences.”

FINANCE

“Draft the commentary for this quarter’s figures.”

MEDICAL

“Turn these notes into a referral letter.”

Your data stays in your office

The AI runs on a machine you own, inside your building. Chats and files stay on its disk, and outside connections are blocked unless you switch a service on.

Because of that, staff can use it on real client material.

IN EVERY MACHINE

What your team gets from day one

Your own AI assistant
Staff open a web page on the office network and sign in. Nothing to install on their computers.

Private chats
Each person sees only their own chats. The chat app does not let administrators open them.

Documents in a chat
Add a Word file, PDF, scan or photo, then ask questions about it or have it summarised.

Ready-made prompts
Type / to pick one: summarise a document, turn notes into minutes, draft a reply.

Stays in your office
Outside connections are blocked by default. You decide what connects.

Encrypted storage
Everything on the machine is encrypted, and so are the nightly backups.

A record of use
Who used the assistant and when, never what they asked. You choose how long it is kept.

Back after a power cut
Set up to restart by itself, with nobody needing to type a password.

HOW YOU BUY

See it work before you pay in full

1
Live demo
Watch it handle real tasks on a video call.

2
50% deposit
Pay half when you order. We build and test your machine.

3
Installation day
Our engineer installs it. Your team tries it and you sign it off.

4
Balance
The other half, only once it works in your office.

Book a live demo

Online, or at your office by appointment.

info@pravio.ai · pravio.ai

From GBP 4,990, one-time payment. You own the machine.

Like every AI, it can make mistakes, so a qualified person should check its work before it is relied on. In healthcare it is for administration and correspondence, not diagnosis or treatment. Available in the UK to businesses and organisations only; the customer agreement sets out the full terms. Pravio Limited, registered in Scotland, company number SC865047. 184 The Loaning, Motherwell, ML1 3LL.

THREE SIZES, ONE IDEA

Every machine does the same things. Bigger ones serve more people.

	Start	Plus	Max
Starting from	**GBP 4,990**	**GBP 7,999**	**GBP 29,900**
Team size	5 to 10 people	10 to 20 people	20 to 50 people
AI model	Quick, for everyday writing	Stronger, for long documents	Fastest with many users
Machine	Mini PC, 64 GB AI memory	Mini PC, 128 GB AI memory	Workstation, pro AI card
Storage	2 TB	4 TB	2 × 4 TB, mirrored

One-time payment, machine and AI chat included. Max+ for larger organisations: on request.

ADD WHEN YOU ARE READY

Knowledge Base. Answers from your own policies, templates and files, with links to the source.

Voice notes. Turns a recorded meeting or dictation into minutes or a letter.

Connections. Works with systems you choose, one at a time, only with your approval.

Introduced one at a time. Ask us what is available today. Reading scans, photos and screenshots is included on every machine.

CHOOSE YOUR COVER

Pravio Care

From GBP 149 a month

Essential (basic cover, required for the first year), Plus (recommended) or Complete (full cover). Updates in an agreed window, help when something goes wrong, and more with each level.

FOR YOUR IT ADVISER

- Runs as a web page on your office network. No software on staff computers.
- Standard AI model: GPT-OSS 20B on Start, GPT-OSS 120B on Plus and Max, running on the machine itself.
- Disks and nightly backups encrypted. The backup drive is agreed at installation.
- Outside connections blocked. Updates only in an agreed window, from approved sources.
- Remote support off by default. Full access needs your permission each time, is time-limited and recorded.

WHAT WE ASK OF YOU

- One person to add and remove staff accounts and check that backups run.
- Keep the sealed envelope from installation safe, and tell us about an office time server if you have one.
- A locked room or cabinet for the machine.
- A secure office network: never connect the machine directly to the internet or a guest network.
- Insurance for the machine from delivery. A battery backup unit (UPS) is recommended.

Indicative specification: AI moves fast, so the final machine may differ. Prices subject to hardware availability. User numbers are a guide. Warranty is that of the machine's manufacturer or reseller.
